

Deep Dive into MTSS Essentials

PROFESSIONAL LEARNING OPPORTUNITY

To implement an effective Multi-Tiered System of Support (MTSS) framework, it is **critical** that school leaders have a strong conceptual understanding of MTSS.

Effective MTSS frameworks are composed of 5 core components:

- Infrastructure and Support
- Multilevel Instruction
- Assessment
- Data-Based Decision-Making
- Fidelity and Evaluation

Strengthen your team's capacity and conceptual understanding of MTSS by joining us for an eight session professional learning series.

This course is focused on unpacking each core component and learning about the latest evidence-based practices and practical tools to support data-based decision-making and implementation. Teams will engage in reflection and hands-on learning with data protocols to hone skills in implementing MTSS with fidelity.

This training will be delivered via Zoom from 1pm-3pm.

Course Objectives:

- Increase conceptual understanding in the 5 core components of MTSS.
- Identify key approaches to implementing the 5 core components of MTSS.
- Build teams' capacity to implement an MTSS framework with fidelity.
- Apply concepts and practical skills to your local context.

Dates: Oct. 27, Nov. 10, Dec. 1, Dec. 21, Feb. 2, Feb. 16, March 2 and April 6

Who should participate?

Administrators, instructional leaders, and MTSS teams

This course is intended for teams who are in the initial stage of implementation or who are interested in strengthening their knowledge in core components of MTSS and firming up their MTSS framework.

Cost:

Non-member team | \$2500 per team of five for all sessions (model process guide included)
CAREI Assembly Member Team | \$2000 per team of five for all sessions (model process guide included)

Register at: z.umn.edu/careiPD

Become a CAREI Assembly Member and Save: carei.umn.edu/services/district-assembly

For questions: Contact Ellina Xiong at ellina@umn.edu.

Scope and Sequence

Session 1: Introduction and Rationale

Session 2: Infrastructure and Support

Session 3: Multilevel Instruction- Tier 1

Session 4: Multilevel Instruction - Tier 2

Session 5: Multilevel Instruction - Tier 3

Session 6: Assessment

Session 7: Data-Based Decision-Making

Session 8: Fidelity and Evaluation
